

Knex Property Manager

Knex Property Manager seamlessly integrates with Oracle Cloud Applications, finally bringing your property solutions “under one roof.” From tenant management and building maintenance to inventory oversight and financial understanding, the day-to-day of long-term commercial property and land management is made easy.

/ Features

> Management Under One Roof.

Manage the easy way and maximize return on investment.

> Effortlessly Manage Inventory

Understand asset inventory, track tenant occupancy, and coordinate listing and leasing.

> Effectively Manage Tenants

Centralize rental billing and receiving, renew lease agreements, and automate rent increases.

> Promptly Manage Maintenance

Stabilize long-term maintenance, establish care cycles, and reconcile common area costs.

> Intuitively Manage Finances

Automatically interface tenant billing to financial systems, generate journal entries, and process expenses.

/ Integrations

> Oracle Accounts Payable

Ensure prompt payments, analyze processing, and support cash management strategies.

> Oracle Accounts Receivable

Shopping is a pleasure with a simple-to-use interface, easy navigation, and advanced search capabilities.

> Oracle Procurement

Integrated inventory management and credit card processors make checkout straightforward.

> Oracle Assets

Orders are fulfilled and shipped with automatic customer communication the whole way.

> Oracle General Ledger

Customer information is securely stored for repeat business and monthly subscriptions.

Take the
Next Step.
